What's New In?

KLOVE Radio Gadget is a software utility that allows you to add a standard Windows Sidebar gadget to your desktop. It is similar to a Yahoo Gadgets sidebar gadget, except for KLOVE Radio Gadget. Notification Center makes sure that you are notified about important events in your life or in the world. It will give you information that you would have never thought about. Quick Start for quick importing of pages to your browser. It's not just for viewing, it's for downloading too. You can download to a folder. Windows Software Requirements Microsoft Windows Vista / Windows XP / Windows 2000 / Windows 98 Windows XP / Vista user reviews Reviews for Windows XP / Vista user Recommended Software February 26, 2007, Verified Reviewer We recommend this software based on our experience with it. November 23, 2006, Verified Reviewer I bought this after reading some of the reviews and it's just what i was looking for. Keeps my computer nice and clean. It is great for watching movies on YouTube without having to open up explorer. A must have program if your looking for something that will keep your computer cleaner and easier to use. November 1, 2006, Verified Reviewer I had no issues installing it. It works just fine. May 5, 2006, Verified Reviewer This program is easy to use. However, you can't change the default search engine. Also, if you want to change the window buttons on the taskbar to the default, the instructions say to right click on the window button and select Properties, but you can't do that from the program. April 11, 2006, Verified Reviewer What a nice program. I really like the regular search, and I'm glad it can open images and flv files too. I also like the ability to mark a particular web page as a favorite. I only wish it could mark favorites by bookmark or anything more than just Favorite. That way it would be easier to find my favorites. I tried to download the more advanced search engine, but it kept giving me a download error. December 5, 2005, Verified Reviewer I love this program! It works great and I have it on all my computers. I don't think they make it any better than this program. I highly recommend it. October 5, 2005, Verified Reviewer This is a great program, however, there is a way to make it show web pages (like a link) instead of showing a "view in browser". It's really annoying and I don't know how to fix it. March 30, 2005, Verified Reviewer I find this program useful. It doesn't do any more than is needed, so I don't find it to be over-complicated. I like the tabbed interface and that I can
